

## A Glimpse into the Year 2005

**1 January, 2005**  
**Camp at Chennai, India.**

**God's revelation to His servant Rev. Peter Kumar**

1 Cor 13:9 - For we know in part and we prophesy in part.

1. 2005 is a year of breakthrough for God's children. God's children around the world will enjoy divine grace and divine prosperity in their family life, business and ministry.
2. There will be an increase in natural and man-made disasters. Multitudes of innocent people will die across the globe but there will be a divine protection for God's children.
3. There will be increased threats of murder and destruction over the nations of the U.S, Britain and Australia by fundamental religious groups but the Spirit of God will bring forth grace, repentance and revival in these nations.
4. God will prosper the nations of Australia, New Zealand and many nations in South-East Asia such as China, Singapore, Malaysia, Vietnam and Thailand. There will a new move of trade between these nations.
5. There will be a slow decline of prosperity in nations like the U.S, Great Britain, South Africa and several African nations.
6. Communism as a principle will become stronger and stronger in European nations.
7. Countries like Germany, Switzerland, France, Belgium and Turkey will become more and more strong and powerful. They will prepare the platform for the appearance of the anti-Christ.
8. There will be political changes in the nation of Israel and the present Prime Minister will not stay for long. There will also be political changes in the leadership of Arab nations even Palestine. The Arab nations will plot to crush Jerusalem along with the help of European powers.
9. While the people of God witness happenings concerning the anti-Christ and things like the mark of the beast - microchips will be inserted into people's body, the Spirit of God will turn the hearts of millions in many nations.
10. Sin will permeate every available media and several models of family life will become acceptable. Marriage will become obsolete in the Western world; however, plagues and sicknesses of unusual kind will appear and spread across the world.

Let the local church pray that the world will become a better place to live.

Love,  
Peter Kumar
