## **FORERUNNERS LOOKING INTO 2006**

1 January 2006

### **1 Corinthians 13: 9 "...for we know in part and we prophesy in part."**

As we stepped into 2006 God revealed things concerning different nations. These things are shared only to prepare ourselves as we step into nations:

1. This year will be a year of protection for God's children around the world. Protection from the works of darkness, persecution and natural disasters. While the forces against the people of God around the world will increase, God's hand of protection will be upon them and there will be testimonies of miraculous protection from God's people all across the globe.
2. Since the enemy knows that his time is short there will be a great increase of natural disasters, civil wars, violence fueled by racism and plagues and pestilence. It will bring destruction to more and more innocent, precious lives. It will be as if a spirit of murder is let loose in the world.
3. People will be so full of fear that there will be extensive research into building homes and habitations, in the depths of oceans, inside mountains and even in outer space. People will explore possibilities of making dwelling places on the moon.
4. There will be great and spectacular advancement in the transportation industry. Many alternative fuels will be discovered. Vehicles will be able to travel at a much greater speed with significant fuel economy.
5. Global warming will begin to become more and more evident and this will affect seasons, weather patterns, ultimately affecting agricultural patterns.

### **IN EUROPE**

1. Racism will rise up like a wild animal all across Europe. There will be violence, attacks on marginal groups and bloodshed –ushering in human philosophy and mind management, similar to communism.
2. There will be major terrorist attacks within Europe which will bring more fear and panic but this will draw European & Middle Eastern nations to make pacts and friendly agreements.
3. Europe will begin to intervene in sorting out matters between Israel and the Palestinians, to bring peace
4. Trade & Commerce will make Europe very strong and the euro dollar will soar very high.
5. The United Nations power & influence will lessen. Another similar organisation will rise up in Europe and leaders will shift their trust to it.

### **IN AFRICA**

1. There will be more and more ethnic wars, violence and killing of masses within African communities.
2. Plagues, famines and pestilence will be like a tight noose around many African nations.
3. Many people will turn from Islam to Christianity in Africa. Local churches will explode in Africa in growth.
4. There will be unusual diseases and pestilences upon both the people and livestock in Africa.
5. Africa will be sending missionaries to nations, particularly the Western nations.

### **IN ASIA:**

1. Most of the Asian countries will become very prosperous in terms of becoming self-sufficient.
2. There will be huge quantities of natural resources, like minerals, oil, gas and related substances, discovered in the Asian countries. There will be a new sense of prosperity in these nations.
3. The Asian nations will be too eager to establish business propositions, agreements and tourism ties with other nations thus leading to a huge open door to preach the gospel.
4. As the gospel is preached all across Asia, through every available media, there will also be an increase in persecution and martyrdom in nations like Vietnam, Myanmar, China, Cambodia and Thailand as well as others.

#### **IN THE UNITED STATES OF AMERICA:**

1. Maintaining the troops in Iraq will be a huge snare for President Bush and his administration. People will begin to desire a change in leadership long before the end of his term is completed.
2. There will be more natural disasters in the United States breaking the economy of the nation.
3. There will be a huge move of migrants out of the United States.
4. There will be great repentance all across the U.S. and the nation will begin to cry out to God.

#### **IN AUSTRALIA:**

1. Revival has begun in Australia. People will begin to seek the face of God and come back to the local church.
2. There will be natural calamities like floods and tidal waves. There will be an unusual out pouring of seasonal rain transforming the deserts of Australia
3. Australia will rise up as a very prosperous nation and will advance rapidly in its technology. The present government will become more and more stable.
4. The Australian media will become very powerful. They will launch massive satellites.
5. People from the U.S. and many European countries will set their eyes on Australia for migration and employment purposes.

#### **MIDDLE EAST WINDOW:**

Ariel Sharon will cease to be the Prime Minister. His successor will appear to be keen to promote peace in that region. The world leaders will acknowledge him but things will turn bitter – there will be great bloodshed between Israel and the Palestinians and the world will see Israel knocking at the doors of Europe for help. Then people will know that the platform is set for the rise of the anti-Christ.

#### **IN NEW ZEALAND:**

1. Racism will increase and the nation will see violence, even bloodshed as a result of racial issues.
2. Natural disasters like earthquakes and tidal waves will begin to affect NZ.
3. There will be an economic slump for a while which will affect marginalised families.
4. There will be a shuffle among people sitting in high places; even some parliamentarians will cease to be in leadership.
5. Revival will become more and more rampant and more and more people will take the gospel to the streets and market places.
